

## **Changing Room Policy**

Newtown Swimming Club has been asked to clearly state what responsibility the club has for swimmers in changing rooms before, during and after training or competition. The club follows the Swim Wales guidelines on child protection and our duty of care is as per the Swim Wales changing room policy which is attached. Below is taken from Page 66 of the Swim Wales Child Protection Policy Part 2 which is available in its entirety on the Swim Wales website <http://www.welshasa.co.uk/policies.asp>. We respectfully ask all parents to read the attached document and to follow the guidelines.

## **Swim Wales Changing Room Policy**

### ***Duty of Care to Swimmers in Changing Facilities***

Swim Wales has been asked by many clubs to clearly state what responsibility the club has for swimmers in changing rooms before, during and after training or competition.

Under the Duty of Care to Safeguard Children, the club have a responsibility for the well being of children in the changing rooms. This does not mean that the parents have no responsibility, but parents are often not in the pool complex at the time when children are swimming and training to exercise their duty of care. For this reason, clubs must make clear to parents under what circumstances they require parents to remain at the pool throughout a session. For example with young children who require assistance in changing or for those children with a disability who may require additional help that the club cannot provide.

### ***Responsibility during a Club Session***

The issue of club responsibility during training sessions when a swimmer uses the toilets or changing room has been raised on several occasions. Swim Wales view is that while a child is training he remains under the responsibility, under the duty of care, of the person who is teaching/coaching him at that time on behalf of the club. If a swimmer goes out of the pool area the coach/teacher should be aware of this. If she/he fails to return in a reasonable time, or appears upset upon leaving the poolside the coach/teacher should request a suitable club official to ensure that he/she is all right. It is best practice for two persons to look for the swimmer (the second person could be a senior swimmer or another parent).

If a complaint is received that an incident has occurred in the changing room between a swimmer and any other person the club has a duty to act upon that concern and investigate appropriately. If the incident involves a person not associated with the club, the pool

manager should be made aware and consideration given as to whether the statutory agencies need informing.

### ***Information for Parents Regarding Changing Facilities***

Parents must be aware that changing facilities at venues may be shared by both club members and members of the general public and the type of changing rooms may be separate for male and female or changing villages.

The behaviour of swimmers in changing rooms is part of the swimmers “code of conduct”.

Parents must be aware that they should not be in the changing room while their swimmers are changing unless the swimmer is of an age where help is required from parents, or the swimmer requires additional specific assistance. This is generally at an age that is stipulated by the pool hirer, usually 7 or 8 years of age. In such circumstances the parent must be the same gender as the child, unless the facility has family changing facilities or is a “mixed changing village”.

During events where other clubs are involved, meet organisers will advise parents and competitors (via the meet information) if the facilities are likely to be open to the general public at any time during the meet.

Swim Wales does not advise adults supervise changing facilities as that places them and the children at risk of harm and allegation.

### ***Responsibility after a session is completed***

Swim Wales view is that each affiliated club has a duty of reasonable care to swimmers, which extends to an awareness on the part of the club that their junior members have been collected, in so far as is possible, at the conclusion of a session i.e. that a swimmer is not left unsupervised if a parent is late. This has to be age appropriate, i.e. a 17 year old is capable of getting themselves home, but a 12 year old is not.

However if a club uses changing rooms that are also accessible to non club members for public swimming lanes it would be extreme to expect a club to search the changing areas in case a junior club member was there.

We need to make you aware that if a swimmer is not collected by a parent then they will make that known to the club Welfare Officer, coach or whoever the club deem to be appropriate, and for the nominated individual to ensure that the club member is supervised appropriately until a parent arrives or the parent communicates alternative arrangements.

If a parent fails to collect a child then the club will follow the procedure outlined in the Swim Wales Policy - Guidance on Late Collection of Children.
